

Clerk's Report – 28th June 2022

Toilets: Another couple of lights are flickering in the toilets. Skinners have been asked to repair.

SID: The grant was received for the Speed Indicator Device. This is now safely stored until Highways are ready to install. There will be three alternative sites (posts), so the SID can be moved around if required. It could be several weeks before Highways get round to this.

The Defibrillator is now safely stored in the Yettington Phone Box and will be checked regularly by the Clerk.

Death of a Monarch

The Clerk held a meeting with Budleigh Salterton and Otterton Town & Parish Clerk, to study the instructions and make preparations. The current likely scenario is called "Operation London Bridge". Councillors are asked to approve the attached document in preparation for any such event.
