

PARISH COUNCIL REPORT February 2023

YETTINGTON

TREE CUTTING FOR EAST BUDLEIGH SPEED CAMERA

Carters were approached to obtain permission to trim the branches obscuring the speed camera outside Carters crane hire. The trees are owned by Clinton Devon estates. Clinton Devon have been contacted by email asking them to trim the tree. Awaiting a reply.

DEFIBRILLATOR

The light bulb has been changed in the telephone box housing the defibrillator but the light does not work therefore it is assumed there is no power to the light.

A new solar powered light with a dawn until dusk sensor has been purchased. This should provide light during the hours of darkness.

Testing will be completed to ensure the solar panel can keep the light charged.

Approval is required to drill a hole in the telephone kiosk to run the cable between the solar panel and the light.

Councillor Jim Ferrers
