

## **February 2023 Report from Councillor Louis Allan**

1. Airband have conducted a site survey regarding the provision of broadband but have yet to report their finding.
2. Plans for a staged refurbishment of the village hall are moving forward gently with informal, low-key meetings with the Village Shop manager. An open morning/meeting is being planned for late June to get feedback from the whole village; this event will be particularly promoted at the May Fair and Coronation Day celebrations. Funding options are being explored but will require further definition of the project before applications can be made. As part of the refurbishment the Parish Clerk has provided details of energy saving/heating improvement grants.
3. The Village Hall trustees stand ready to support the Coronation Day events with the supply of tables, etc and the opening of on-site facilities.
