

# **PARISH COUNCIL REPORT January 2023**

## **YETTINGTON**

### **Pot Holes**

A lot of the road from 4 firs to Yettington is marked with white paint. It is hoped these areas are scheduled for repair

Ref W231658963 is a large pot hole near Lamprice Farm. The latest update was on Monday 11/09/2023. Was that the defect has been surveyed and any actionable defects will be repaired in line with highways policy. Any details are available on the highways website.

### **Yettington meet the neighbours coffee morning**

The meeting was well attended and introductions made between the parish council representative and the flood defence representative and speed watch representative.

Interestingly events at Bicton tend to reduce the amount of speeding in the area.

### **Defibrillator**

The area around the defibrillator will be cut when the weather permits.

### **Flooding**

Recent weather events caused some temporary flooding of the road in Yettington.

No property was affected and the water subsided after the rain stopped.

**Councillor Jim Ferrers**
