

## **Parish Paths Partnership report for February 2022**

I completed my annual survey of the parish paths and have submitted it to Devon CC PRow department together with an application for the annual maintenance grant. Most of the minor changes noted in my report are the same as last year and are in the process of being sorted out by the DCC warden. I made a tentative proposal for hard surfacing on the first 100m of the footpath along the riverside north of Otterton Bridge (Bicton 3). This very popular path gets dangerously slippery after rain. I will work out the requirements for materials and funding with the help of the DCC warden.
