

Report on Village Hall by Louis Allen

The Village Hall trustees eventually met on 28 February.

A number of topics were discussed and resulted in plans to reduce hall expenditure plus the agreed purchase of a number of lightweight chairs to suit those users who found the existing chairs heavy and cumbersome.

The refurbishment subcommittee is awaiting the final details of the shop's needs; when received, the plans will be redrawn to support a planning application.

The 'outside' maintenance day at the hall which was planned for Saturday 16 March has been postponed until April due to expected bad weather.

The next trustees' meeting will be held on 18 March.
